What Clients Say. (see more testimonials)

"I have served as CEO for twelve hospital systems, all of whom faced major challenges. During my time as CEO for a St. Louis healthcare system, I had the opportunity to work personally with Cohesion and Brian Creath. I can say without reservation that Brian and his team were the finest strategic advisors of all of the groups with whom I have worked. They were exceptional thinkers and listeners. They were profoundly helpful in repositioning our health system in a highly competitive market. I viewed Brian as a trusted and valuable colleague during our time together."

We Solve For Complexity.

Born from a concept that has been fine-tuned over a 20-year period, our process (and approach) finds its most value when dealing with the most difficult and complex brand, marketing, communications and sales challenges facing an organization. Those issues that keep getting kicked down the road; the one that's just too tough to solve 'right now.'

Reasons To Hire Cohesion (Just a few.)

- "We need a brand new brand."
- "Our brand, position and/or message is just too complex: Everyone needs a more simplified, consistent approach."
- "We need a better way to express our vision, value and mission."
- "Our brand architecture is too complex/confusing/outdated. We need to refine, rename and build a more cohesive brand and messaging platform."
- "We have new management; they want to redirect our brand and marketing efforts."
- "We have undertaken (are going through) an acquisition, split, or spin-off and need to revisit our brand direction, architecture and messaging."
- "We need a part-time (or interim) Chief Marketing Officer."
- "We face increasing change and uncertainty in our market(s) – the familiar ways of doing business aren't working any more."
- "We lack consistency and direction with our brand positioning, marketing message and communications materials."
- "We have customers and prospects who don't fully understand the 'true' value that our products and/or services offer."
- "We miss out on too many cross-selling opportunities."
- "We have too many marketing tactics and not enough direction. There is a lack of group consensus on priorities and focus - we always start from scratch with no umbrella strategy."
